PROFESSIONAL SUMMARY

Computer Science graduate (First Class with Distinction, CGPA 8.60/10) who develops daily on Ubuntu/Linux. Built and published sysscope, an open-source Linux diagnostics CLI packaged in three formats (pip, .deb, and a live Snap Store release), with automated testing and CI. Hands-on experience building production software in Python, Java, and JavaScript, with practical exposure to Docker, GitLab CI/CD, and AWS. Completed an AI/ML internship in metrics-driven model evaluation, co-authoring a paper indexed in IEEE Xplore. Seeking a graduate Software Engineer role in open-source, Linux-based systems engineering.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

Systems & Cloud: Ubuntu/Linux (daily dev environment), Windows Server, AWS, Azure, Docker, GitLab CI/CD

Linux Packaging: Snapcraft (Snap), Debian (.deb), pip/PyPI

Frameworks & Web: React.js, Node.js, Bootstrap, Streamlit, Gradio

Databases: MySQL, SQL Server

Engineering Practices: Object-Oriented Programming, Data Structures & Algorithms, Git/GitHub, Agile/Scrum, Automated Testing (pytest), CI/CD (GitHub Actions), Debugging

AI/ML: Machine Learning, NLP, Deep Learning, scikit-learn, Data Analysis

PROFESSIONAL EXPERIENCE

Freelance Software Developer | *Mavano Sports Academy*

Jan 2026 – Apr 2026

- Engineered a responsive, cross-browser web application using React.js, JavaScript, HTML/CSS, and Bootstrap, now live in production at mavanosportsacademy.com.
- Built and integrated backend functionality with a structured database layer, enabling reliable content management for academy operations.
- Owned the complete software delivery lifecycle as sole engineer — requirements, development, debugging, testing, and deployment — shipping a stable production release.
- Performed ongoing application maintenance and bug fixes post-launch, ensuring consistent uptime and smooth user experience.

Artificial Intelligence Intern | *Infosys Springboard*

May 2024 – Jul 2024

- Designed and built an NLP-based text summarization application in Python, implementing extractive (TF-IDF, TextRank) and abstractive (T5, BART) modeling approaches.
- Validated model output quality using ROUGE evaluation metrics, establishing a repeatable benchmark process across multiple model variants.
- Developed and deployed an interactive Streamlit/Gradio interface, enabling non-technical stakeholders to test and compare results in real time.

PROJECTS

sysscope — Open-Source Linux Diagnostics CLI

Aug 2026

- Built a Python CLI reporting CPU, memory, disk, processes, and services by reading directly from /proc, /sys, dpkg, and systemctl; published live on the Snap Store, plus pip and Debian (.deb) packages.
- Built a pytest suite and a GitHub Actions CI pipeline testing across Python 3.9–3.12 on every push.

Text Summarization Using NLP and Machine Learning

Aug 2024 – Aug 2025

- Extended internship research into a standalone Python system combining extractive and transformer-based abstractive summarization techniques.
- Automated text preprocessing and model evaluation pipelines, benchmarking performance with ROUGE metrics for consistent, measurable quality control.

github.com/nebuthomas2003/Text_Summarization

Nutritional Meal Planner Using Machine Learning

Mar 2024

- Built a Python-based machine learning recommendation engine that generated personalized nutrition plans from user input data.
- Applied data processing and feature analysis techniques to improve recommendation accuracy and relevance.

CERTIFICATIONS

- AWS Academy Graduate — AWS Academy Cloud Security Foundations
- Wipro TalentNext — Java Full Stack Development (Dec 2025)
- Infosys Springboard — Artificial Intelligence Primer Certification (Sep 2023)
- Salesforce Developer Virtual Internship — Apex, LWC, Process Automation
- UiPath Academic Alliance — RPA Citizen Developer Program (Mar 2023)

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering

Nov 2021 – Mar 2025

Mahendra Engineering College, affiliated to Anna University, Chennai — CGPA: 8.60/10, First Class with Distinction

Languages: English — C1 (Proficient) | German — A2 (Basic)
